### **Liability Protection for Your Organization: A Covid-19 Toolbox**

Even in the best of times, nonprofit organizations are well-advised to assess risk, evaluate liability exposure, and take protective measures in order to avoid the destabilizing consequences of legal claims. Operating in a Covid-19 world makes these protective steps even more vital.

Please [visit](#) our website for information on a variety of legal tools which can be used to mitigate risk and improve liability protection for your organization including:

- Liability waivers
- Force Majeure clauses
- Insurance risk analysis and adequate coverage
- Payroll and workforce management
- Charitable immunity
- Internal expertise and documented oversight procedures

We hope this information is helpful - and thank you for the contributions your organizations make to the world we all share.

Take good care!
